

EPSDT and Title V Collaboration to Improve Child Health

Title V Role in Quality Monitoring

State Title V agencies can play an important role in monitoring EPSDT. The examples below describe some current and past data and monitoring activities undertaken by Title V agencies.

Tracking Participation

- Collect and publish the data required under Title V legislation [View details](#)
- Assist Medicaid agency in tracking screening ratio, as they aim to reach 80%
- Collect data on service utilization and outcomes of children with special health care needs enrolled in Medicaid

Provider Related Activities

- Collaborate with the Academy of Pediatrics, Academy of Family Physicians, Primary Care Association, and other professional organizations to train about and promote participation in EPSDT
- Develop EPSDT data collection tools for maternity and pediatric providers
- Monitor EPSDT screening rates among local health departments that provide well-child care

Activities Related to Managed Care

- Assist in conducting managed care record review or focus studies
- Monitor the adequacy of screens [View Data Requirement Page](#)
