

# Arizona

Summer 2011

## Title V Women's Health-Related Priority Needs:

- ▶ Increase the percent of children and families who are at a healthy weight.
- ▶ Reduce the rate of injuries, both intentional and unintentional, among Arizonans.
- ▶ Improve the oral health of Arizonans.
- ▶ Improve the behavioral health of women and children.
- ▶ Improve the health of women prior to pregnancy.

### State Performance and Outcome Measures Associated with Women's Health-Related Priority Needs

**State Performance Measure 5:** Reduce the percent of women having a subsequent pregnancy during the interpregnancy interval of 18–59 months.

*Data Source:* Vital statistics

*Measure Definition:* Interpregnancy interval is measured by the difference in months between last pregnancy end and estimated month of conception for current birth or spontaneous abortion.

**State Performance Measure 7:** Decrease the percent of women aged 18 and older who suffer from frequent mental distress.

*Data Source:* BRFSS

*Measure Definition:* As defined by the CDC Health Related Quality of Life Measures, frequent mental distress is having 14 or more mentally unhealthy days in the past month.

## Additional Data Associated with Women's Health-Related Priority Needs

*This section lists other data sources that Title V agencies included in their 2010 Needs Assessments regarding the status of women's health outside of pregnancy.*

Percent of women aged 18–44 who consume five or more servings of fruit and vegetables daily.

*Data Source:* BRFSS

Percent of women aged 18–44 who meet physical activity recommendations.

*Data Source:* BRFSS

Percent of women of reproductive age who are overweight or obese.

*Data Source:* BRFSS

Percent of women aged 18–44 reporting consuming multivitamins or supplements with folic acid.

*Data Source:* BRFSS

Percent of total non-fatal hospitalizations and emergency room visits resulting from injuries due to sexual violence.

*Data Source:* Not specified

Rate per 100,000 of forcible rape against women.

*Data Source:* FBI Uniform Crime Report Statistics

Rate per 100,000 of suicide among women of reproductive age.

*Data Source:* Vital statistics

Percent of women aged 18–44 who are current smokers.

*Data Source:* BRFSS
