

Arkansas

Summer 2011

Title V Women's Health-Related Priority Needs:

- ▶ Improve oral health in children and women.
- ▶ Reduce smoking among women of childbearing age.

State Performance and Outcome Measures Associated with Women's Health-Related Priority Needs

State Performance Measure 2: Reduce the percent of women aged 18–44 who report being current smokers.

Data Source: BRFSS

Measure Definition: Number of women aged 18–44 who responded on BRFSS that they are currently smoking divided by the number of women aged 18–44 who responded to BRFSS, multiplied by 100.

Additional Data Associated with Women's Health-Related Priority Needs

This section lists other data sources that Title V agencies included in their 2010 Needs Assessments regarding the status of women's health outside of pregnancy.

Percent of women aged 18 and older who have visited a dentist or dental clinic in the past year.

Data Source: National Oral Health Surveillance System

The information presented here reflects only women's health-related content reported by the Title V agency in its FY 2011 MCH Block Grant Application, FY 2009 Annual Report and 2010 Needs Assessment. This information, as well as all Title V agencies' most current priority needs, performance and outcome measures, can be found at:
