

South Carolina

Summer 2011

Title V Women's Health-Related Priority Needs:

- ▶ Improve overall pre- and interconception health status of South Carolina women.
- ▶ Reduce the rate of maternal deaths.

State Performance and Outcome Measures Associated with Women's Health-Related Priority Needs

State Performance Measure 1: Increase the number of perinatal regions with an established pre- and interconception health coalition working to identify and address pre- and interconception health needs of women.

Data Source: State self-assessment or performance

Measure Definition: A scaling measure with values ranging from 1–6 will be used to monitor progress towards this objective; scaling values will correspond to the following index: 1) No coalition or activity 2) Established pre- and inter-conception health coalition 3) Completion of assessment 4) Development of a plan 5) Implementation of a program 6) Evaluation and feedback to stakeholders.

Additional Data Associated with Women's Health-Related Priority Needs
