

# South Dakota

Summer 2011

## Title V Women's Health-Related Priority Needs:

- ▶ Improve and assure appropriate access to health services that are focused on families, women, infants, children, adolescents, and CYSHCN.
- ▶ Reduce unintended pregnancies.

### State Performance and Outcome Measures Associated with Women's Health-Related Priority Needs

**State Performance Measure 1:** Reduce the percent of pregnancies that are unintended (mistimed or unwanted) and result in a live birth or abortion.

*Data Source:* Vital statistics; South Dakota Perinatal Health Risk Assessment

*Measure Definition:* Percent of pregnancies that are unintended (mistimed or unwanted) and result in a live birth or abortion.

### Additional Data Associated with Women's Health-Related Priority Needs

*This section lists other data sources that Title V agencies included in their 2010 Needs Assessments regarding the status of women's health outside of pregnancy.*

Percent of pregnant women who said that the father wanted the pregnancy then or sooner.

*Data Source:* Perinatal Health Risk Assessment

Percent of counties that are designated as Primary Medical Care Health Professional Shortage Areas, Dental Health Professional Shortage Areas, or Mental Health Professional Shortage Areas.

*Data Source:* Not specified

Percent of women stating that they smoked in the 3 months prior to pregnancy.

*Data Source:* Not specified

The information presented here reflects only women's health-related content reported by the Title V agency in its FY 2011 MCH Block Grant Application, FY 2009 Annual Report and 2010 Needs Assessment.
