

# Texas

Summer 2011

## Title V Women's Health-Related Priority Needs:

- ▶ Support and develop health care infrastructure that provides coordinated access to services in a culturally competent manner, addressing health issues across the life course.
- ▶ Increase the availability of quality mental health and substance abuse services.
- ▶ Increase access to dental care.
- ▶ Use population-based services including health promotion and disease prevention interventions to improve health outcomes of the MCH population.

### State Performance and Outcome Measures Associated with Women's Health-Related Priority Needs

**State Performance Measure 4:** Percent of women aged 18–44 who are current cigarette smokers.

*Data Source:* BRFSS
