

Virginia

Summer 2011

Title V Women's Health-Related Priority Needs:

- ▶ Reduce injury, violence, and suicide across Title V populations.
- ▶ Increase access to dental care and population-based prevention of dental disease across the lifespan.

State Performance and Outcome Measures Associated with Women's Health-Related Priority Needs

Of the State Performance Measures developed by the Title V agency, none of the measures specifically addressed women's health outside of pregnancy.

Additional Data Associated with Women's Health-Related Priority Needs

This section lists other data sources that Title V agencies included in their 2010 Needs Assessments regarding the status of women's health outside of pregnancy.

Percent of providers who reported using screening questions for intimate partner violence with patients.

Data Source: Virginia Department of Health's Project RADAR

Percent of women who reported being physically abused in the 12 months prior to pregnancy.

Data Source: Not specified

Percent of women aged 18–44 who reported having their teeth cleaned in the last year.

Data Source: BRFSS

Percent of women who reported that the reason they did not go to the dentist was cost.

Data Source: BRFSS

The information presented here reflects only women's health-related content reported by the Title V agency in its FY 2011 MCH Block Grant Application, FY 2009 Annual Report and 2010 Needs Assessment. This information, as well as all Title V agencies' most current priority needs, performance and outcome measures, can be found at:
