PRE-APPLICATION TECHNICAL ASSISTANCE
WEBINAR AND CONFERENCE CALL

HRSA-19-090: R41 Autism Secondary Data Analysis Research (SDAR)
Program – Fiscal Year 2019 Competition

November 5, 2018
Presenter

Sylvia Sosa, MSc
Project Officer
Division of Research, Office of Epidemiology and Research
Maternal and Child Health Bureau
Health Resources and Services Administration
Presentation Outline

- Staff Introductions
- Overview of HRSA and MCHB
- Overview of Autism SDAR Program
- Key Changes in Fiscal Year 2018 and 2019
- Program Goals
- Eligibility Requirements
- Application Process & Deadlines
- Getting Help
- Questions and Answers
Health Resources and Services Administration (HRSA)

• HRSA is the primary federal agency focused on improving health care for geographically isolated, economically or medically vulnerable populations.

• HRSA programs assist:
  ▪ Those in need of high quality primary health care,
  ▪ People living with HIV/AIDS,
  ▪ Pregnant women and mothers, and
  ▪ The training of health professionals.
Maternal and Child Health Bureau (MCHB)

• HRSA’s MCHB focuses on improving the health of America’s mothers, children, and families.

- MCHB programs serve more than 50 million women, children, and families each year.

- Our programs rely upon evidence-based strategies and are data-driven.
Office of Epidemiology and Research (OER)

- OER supports and conducts maternal and child health (MCH) research by providing national leadership around the development, advancement, and utilization of scientific knowledge.

- OER comprises of:
  - Division of Epidemiology (intramural research) and
  - Division of Research (extramural research).
Division of Research (DoR)

• Provides leadership and funding that supports innovative research which informs:
  • Practitioners,
  • The scientific community, and
  • The public.

• DoR’s research programs help advance the MCH field improving the health and well-being of women, children, and families.

• The R41 Autism SDAR Program is authorized by Public Health Service Act, § 399BB(f) (42 U.S.C. § 280i-1(f)), as amended.

  • (1) to increase awareness, reduce barriers to screening and diagnosis, promote evidence-based interventions for individuals with autism spectrum disorder or other developmental disabilities

  • (2) to conduct activities under this section with a focus on an interdisciplinary approach that will focus on specific issues for children who are not receiving an early diagnosis and subsequent interventions

• The R41 Autism SDAR program supports applied Autism research that exclusively utilizes secondary analysis of existing national databases and/or administrative records.
Overview of R41 Autism SDAR Program

• R41 Autism SDAR Program will provide funding for one (1) year

• Project Period will be September 1, 2019 – August 31, 2020.
  ▪ Will fund four (4) grants for one (1)-year project period.
  ▪ Award ceiling amount up to $100,000 per grant/per year.
  ▪ Funding is dependent upon satisfactory performance, availability of funding, and the continued interests of the federal government.
Key Changes in Fiscal Year 2018 and 2019

• The funding opportunity announcement is no longer called FOA but Notice of Funding Opportunity, NOFO.

• Review score amounts were added to the Crosswalk between the narrative and review criteria section of the NOFO to assist applicants.
Findings from the research supported by the program are expected to:

• Generate new evidence to address the needs of underserved populations

• Contribute to the broad public health impact to improve patient engagement and care delivery through studies

• Address the U.S. Department of Health and Human Services’ (HHS) and Health Resources and Services Administration (HRSA) priority areas as they relate to ASD/DD populations and align with the research and surveillance activities identified in the Autism Cares Act of 2014
Grantee Activities (p. 2)

HRSA expects each Autism SDAR award recipient to complete the following major activities:

- Conduct applied or translational research on critical and emerging ASD/DD issues through appropriate secondary data analyses of existing national databases and/or administrative records, that are aligned with research goals;

- Write and publish several peer-reviewed research articles about your project.

- Distribute research findings and products to scientific, professional, and lay audiences, including HRSA and other HHS agencies; and

- Report target population study sample with regards to diversity (i.e., ethnicity, race, gender/sex, geographic location, and socioeconomic status).
Innovative secondary use of existing data from national datasets, administrative records and other publicly available datasets from a variety of sources are encouraged.

• Innovative analytic methods are encouraged.

• Dataset might consist of state or local administrative records, which would typically represent universal participation within a program among a particular population (e.g., Medicaid records for the population of children within a state who receive Medicaid.).
In carrying out the provisions of the Autism CARES Act, HRSA supports programs to improve the quality of care among those diagnosed with ASD/DD through education, early detection, and intervention. Specifically, these activities are designed to:

- **Increase awareness** of ASD/DD;
- **Reduce barriers** to screening and diagnosis;
- **Support research** on evidence-based interventions for individuals with ASD/DD;
- **Promote guideline development** for interventions; and
- **Train professionals to utilize valid screening tools, to diagnose and to provide research-informed interventions** through an interdisciplinary approach that will also focus on specific issues for children who are not receiving an early diagnosis and subsequent interventions.

- The **four program areas** supported by HRSA include (1) Training for Professionals, (2) Autism Research Programs (3) Autism Policy Programs and (4) National Evaluation. For additional details, please see https://mchb.hrsa.gov/maternal-child-health-initiatives/autism.
Eligibility Requirements: Institutions (p. 4)

• Eligible applicants include

  • Any domestic public or private entity, including research centers or networks.

  • Domestic faith-based and community-based organizations,

  • Tribes, and tribal organizations.
Application Responsiveness Criteria (p.4-5)

• In order to diversify our research grant portfolio, and ensure that investigators devote adequate time and expertise to funded research programs, a current PD/PI of an active HRSA/MCHB Research award:
  o Cannot be named as the Project Director (PD) or Principal Investigator (PI) on more than one application for the HRSA-19-090 competition; and serve for no more than 10 percent time on a new proposal;

• Applications to analyze publicly available and accessible longitudinal data are allowed;

• Analysis of secondary data previously collected by the applicant PD/PI will not be considered for funding;

• NOTE: Multiple applications from an organization with the same DUNS number are allowable if the applications propose separate and distinct projects.
Applications cannot propose to analyze linked datasets where one of the datasets proposed for analysis is not publicly available and accessible as all proposed datasets must be publicly available and accessible;

Applications must propose the use of existing publicly available and accessible national datasets and/or administrative records;

All secondary analyses, including those that involve the linkage of multiple datasets, cannot exceed 1 year in length; and

Projects that include the collection of biological specimens will not be considered, as this program funds only applied or translational research on ASD/DD populations and allows the use of existing databases and administrative data.
Eligibility Requirements: Suspension & Debarment (S&D) (p. 6)

• An organization that is suspended, debarred, declared ineligible, or voluntarily excluded from eligibility for covered transactions by any Federal department or agency cannot, during the period of suspension, debarment, or exclusion, receive HHS grants or be paid from HHS grant funds.

• Failure to make required disclosures can result in any of the remedies described in 45 CFR § 75.371, including suspension or debarment. (See also 2 CFR parts 180 and 376, and 31 U.S.C. 3321).
Budget (p. 6)

Section 4 of HRSA’s SF-424 R&R Application Guide provides instructions for the budget, budget justification, staffing plan and personnel requirements, assurances, certifications, and abstract.

• Indirect cost rate: Each applicant organization has an indirect cost rate negotiated with HHS. Check with your sponsored programs office.
• Cap of $100,000 total cost/year for up to 1 year.
• Funding restriction: foreign travel is not allowed.
• You must include a budget justification explaining your budget.

Application Page Limits (p.6)

• Total **80 page limit**, includes all attachments. Only Standard Office of Management and Budget (OMB)-approved forms (application package) are not included in this page limit and others as specified in NOFO.

• Section C. Methodology/Research Strategy/Work Plan/Approach:
  ▪ Limited to **6 pages** in length
  ▪ Applications that exceed these page limits will be deemed non-responsive and will not be considered for funding under this notice.

• Font/Margin requirements: See SF-424 R&R Application Guide:
Application Resubmissions (p. 7)

For a resubmission of a previously reviewed proposal, begin the Introduction by specifying that it is a resubmission; state the application/tracking number of the prior submission, its title, and HRSA notice number of the prior submission.

- **Example:** This is a resubmission of application #, ‘Determinants of Racial Disparities in Access to Screening Services for Autism,’ that was submitted for HRSA-15-032. (There is no limitation to the amount of time lapsed from initial submission of an application to resubmission.)

The following requirements pertain to a resubmission:

- Resubmitted applications will not be reviewed by the prior reviewers/review panel;
- The PD/PI must make significant changes to the application;
- This section must summarize the substantial additions, deletions, and changes to the application. It must also include a response to the issues and criticism raised in the Summary Statement of the previous application.
- The Introduction **should not exceed three pages in length**; and
Application Resubmissions Continued (p. 7)

• The substantial scientific changes must be marked in the text of the application by bracketing, indenting, or changing the typography. Do not underline or shade the changes. Deleted sections should be described but not marked as deletions.

• If the changes are so extensive that essentially all of the text would be marked, explain this in the Introduction. The Preliminary Studies/Progress Report section should incorporate work completed since the prior version of the application was submitted. Resubmissions must address all of the current NOFO requirements.
Project Narrative Sections (p. 7-15)

A. Introduction
B. Specific Aims
C. Methodology/Research Strategy (important page limits)
D. Impact and Dissemination
E. Resources and Capabilities
F. Feasibility
G. Evaluation and Technical Support Capacity
H. Protection of Human Subjects
Other Application Materials

• Abstract
• Staffing Plan: include in budget justification and personnel costs
• Biographical Sketches of Key Personnel
• Attachments:
  • Letters of Agreement/Support
  • Key Publications/Condensed citations
  • Surveys, Questionnaires, Data Collection Instruments, Clinical Protocols
  • Information regarding the database(s) you propose to use
  • Explanation on Delinquent Federal Debt, if applicable
  • Other relevant documents
### R41 Autism SDAR Review Criteria (p. 20)

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Description</th>
<th>Evaluative Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Criterion 1</td>
<td>Need</td>
<td>10 points</td>
</tr>
<tr>
<td>Criterion 2</td>
<td>Response</td>
<td>20 points</td>
</tr>
<tr>
<td>Criterion 3</td>
<td>Evaluative Measures</td>
<td>20 points</td>
</tr>
<tr>
<td>Criterion 4</td>
<td>Impact</td>
<td>20 points</td>
</tr>
<tr>
<td>Criterion 5</td>
<td>Resources/Capabilities</td>
<td>10 points</td>
</tr>
<tr>
<td>Criterion 6</td>
<td>Support Requested</td>
<td>10 points</td>
</tr>
<tr>
<td>Criterion 7</td>
<td>Program Assurances</td>
<td>10 points</td>
</tr>
</tbody>
</table>

These criteria are the basis upon which reviewers will evaluate the application during the objective review.

| Did your Authorized Organization Representative register in SAM and Grants.gov? | | | • This process can take up to 1 month to complete.  
• System for Award Management (SAM): [https://www.sam.gov/](https://www.sam.gov/)  
| In the NEED Section, did you fully address how the proposal will address an unmet need? | | | |
| In the RESPONSE Section, did you fully address: | | | • Goals and Hypotheses?  
• Significance of Methodology/Research Strategy? |
First Things First!

• **IMPORTANT:** Registration with **SAM.GOV** and **GRANTS.GOV** is required in order to submit your application for this competition. These registrations are **mandatory**.

  • If you have accounts, ensure your SAM.gov and Grants.gov registrations and passwords are current
  • If not, register with SAM.gov and Grants.gov immediately!
  • Registrations may take up to one month to complete.
  • Deadline extensions will not granted due to a lack of registration.
Electronic Submission

• Applications to this NOFO must be submitted electronically through Grants.GOV. There are no exceptions.

• Applications must be complete, within the specified page limit, and validated by Grants.gov under the correct funding opportunity number prior to the deadline to be considered under the announcement.

• Download SF-424 Research and Related (R&R) Application Guide associated with this NOFO following the directions provided at Grants.gov.

• Contact the Grants.GOV support center for assistance in downloading the application package.

• Familiarize yourself with SAM.Gov and Grants.Gov and obtain all the requirements that you need to make an application.
Application Deadline

• All applications are due on **Monday, January 22, 2019 by 11:59 PM ET**

• Apply in advance.

• Extensions are not allowed.

• Sign-up for alerts on Grants.gov
Review of Applications

- HRSA has instituted procedures to provide for an objective scientific review of applications.
- Procedures allow for independent assessment of the scientific merit and potential impact of applications.
- Applications are reviewed by HRSA's Division of Independent Review using rigorous peer-review mechanisms.
- Applicants should understand the standards of evaluation and follow these as guidelines while preparing applications.
- HRSA does not institute pay lines.
- The highest ranked applications will receive consideration for award within available funding ranges, depending on availability of funds.
- Funding ranges vary for each competition.
Outcome Notifications

• After the independent review, all applicants will receive:
  • A review critique (summary statements); and
  • An email notice regarding the outcome of their proposals.
Application Process Reminders - Summary

• Review the entire Notice of Funding Opportunity (NOFO)
• Use the completeness checklist for your planning
• Review the Frequently Asked Questions (FAQ)
• Review the eligibility requirements and application criteria
• Register with www.SAM.gov
• Familiarize yourself with www.Grants.gov
• Plan to apply early – do not wait for the last minute
• Program staff are here to assist.
