## INSTRUCTIONS FOR THE COMPLETION OF FORM 5

### NUMBER OF INDIVIDUALS SERVED (UNDUPLICATED) By Type of Individual and Source of Primary Insurance Coverage For Projects Providing Direct Health Care, Enabling or Population-based Services

Enter data into all required (unshaded) data cells. If an actual number is not available, make an estimate. Please explain all estimates, in a note.

**Note** that ages are expressed as either x to y, (i.e., 1 to 25, meaning from age 1 up to age 18, but not including 25) or x – y (i.e., 1 – 4 meaning age 1 through age 4). Also, symbols are used to indicate directions. For example, <1 means less than 1, or from birth up to, but not including age 1. On the other hand, 45+ means age 45 and over.

1. At the top of the Form, the Line Reporting Year displays the year for which the data applies.
2. In Column (a), enter the unduplicated count of individuals who received a direct service from the project regardless of the primary source of insurance coverage. These services are those that are done by any non-capacity building services and would include individuals served by total dollars reported on Form 3, Line 5.
3. In Column (b), the total number of the individuals served is summed from Column (a).
4. In the remaining columns, report the percentage of those individuals receiving direct health care, enabling or population-based services, who have as their primary source of coverage:
  - Column (c): Title XIX (includes Medicaid expansion under Title XXI)
  - Column (d): Title XXI
  - Column (e): Private or other coverage
  - Column (f): None
  - Column (g): Unknown

These may be estimates. If individuals are covered by more than one source of insurance, they should be listed under the column of their primary source.
