Maternal, Infant, and Early Childhood Home Visiting Program

The Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV) gives at-risk pregnant women and families necessary resources and skills to raise children who are physically, socially, and emotionally healthy and ready to succeed.

In FY 2018

The MIECHV Program served over 150,000 parents and children and provided more than 930,000 home visits.

The MIECHV Program funds states, territories, and tribal entities to develop and implement evidence-based, voluntary programs that best meet the needs of their communities.

BENCHMARKS

- Improved maternal and newborn health
- Reduced child injuries, abuse, and neglect
- Improved school readiness and achievement
- Reduced crime or domestic violence
- Improved family economic self-sufficiency
- Improved coordination and referrals for community resources

The MIECHV Program serves many of the most vulnerable families. In FY 2018, states and territories reported that:

- 71% of participating families had household incomes at or below 100 percent of the Federal poverty guidelines ($25,100 for a family four)
- 65% of adult program participants had a high school diploma or less
- 13% of new enrolled households included pregnant teens
- 13% of new enrolled households reported a history of substance abuse
- 19% of new enrolled households reported a history of child abuse and maltreatment

The MIECHV Program’s impact on parents and their children in FY 2018:

- 78% of MIECHV caregivers were screened for depression within 3 months of enrollment or 3 months of delivery
- 70% of children enrolled in MIECHV had a family member who read, told stories, and/or sang with them on a daily basis
- 74% of children enrolled in MIECHV had a timely screening for developmental delays
- 82% of MIECHV caregivers were screened for IPV within 6 months of enrollment
