

## HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

- Supports the [New Hampshire Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for at-risk pregnant women and parents with young children up to kindergarten entry
- Builds upon decades of scientific research showing that home visits by a nurse, social worker, early childhood educator, or other trained professional during pregnancy and in the first years of a child's life helps prevent child abuse and neglect, supports positive parenting, improves maternal and child health, and promotes child development and school readiness

### New Hampshire MIECHV Program At-a-Glance

■ **Rural counties:**  
Belknap, Carroll, Cheshire,  
Coos, Grafton, Merrimack,  
Sullivan

■ **Non-rural counties:**  
Hillsborough, Rockingham,  
Strafford

**Participants**  
**570**

**Households**  
**280**

**Home Visits**  
**3,778**

## New Hampshire Serves a High-Risk Population

MIECHV Program awardees serve high-risk populations. Awardees tailor their programs to serve populations of need within their state.

- 76.3% of households included a child with developmental delays or disabilities
- 75.4% of households were low income
- 67.6% of households reported a history of substance abuse
