

## HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

- Supports the [Oklahoma Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for at-risk pregnant women and parents with young children up to kindergarten entry
- Builds upon decades of scientific research showing that home visits by a nurse, social worker, early childhood educator, or other trained professional during pregnancy and in the first years of a child's life helps prevent child abuse and neglect, supports positive parenting, improves maternal and child health, and promotes child development and school readiness

### Oklahoma MIECHV Program At-a-Glance

**Rural counties:**  
Carter, Muskogee

**Non-rural counties:**  
Oklahoma, Tulsa

**Participants**  
2,125

**Households**  
1,100

**Home Visits**  
12,430

## Oklahoma Serves a High-Risk Population

MIECHV Program awardees serve high-risk populations. Awardees tailor their programs to serve populations of need within their state.

- 33.1% of households were low income
- 10.4% of households included pregnant teens
- 4.8% of households reported a history of substance abuse

## Oklahoma Performance Highlights

- **Developmental Screening:** 92.4% of children enrolled in home visiting had a timely screen for developmental delays
- **Well Child Visits:** 84.4% of children enrolled in home visiting received their last recommended well child visit based on the American Academy of Pediatrics schedule
