

LC 1 PERFORMANCE MEASURE	The percent of programs promoting and/ or facilitating adequate health insurance coverage.
Goal: Adequate Health Insurance Coverage	
Level: Grantee	
Domain: Life Course/ Cross Cutting	
GOAL	To ensure supportive programming for adequate health insurance coverage.
MEASURE	The percent of MCHB funded projects promoting and/ or facilitating adequate health insurance coverage.
DEFINITION	<p>Tier 1: Are you promoting and/ or facilitating adequate health insurance coverage in your program?</p> <ul style="list-style-type: none"><input type="checkbox"/> Yes<input type="checkbox"/> No <p>Tier 2: Through what activities are you promoting and/ or facilitating adequate health insurance coverage?</p> <ul style="list-style-type: none"><input type="checkbox"/> Technical Assistance<input type="checkbox"/> Training<input type="checkbox"/> Product Development<input type="checkbox"/> Research/ Peer-reviewed publications<input type="checkbox"/> Outreach/ Information Dissemination/ Education<input type="checkbox"/> Tracking/ Surveillance<input type="checkbox"/> Screening/ Assessment<input type="checkbox"/> Referral to insurance enrollment<input type="checkbox"/> Quality improvement initiatives <p>Tier 3: How many are reached through those activities? <i>See data LC 1 Data Collection Form.</i></p> <p>Tier 4: What are the related outcomes?</p> <p>% with health insurance¹</p> <p>Numerator: Number of program participants with health insurance as of the last assessment during the reporting period.</p> <p>Denominator: Number of program participants during the reporting period.</p> <p>Participants are identified as not insured if they report not having any of the following: private health insurance, Medicare, Medicaid, Children's Health Insurance Program (CHIP), State-sponsored or other government-sponsored health plan, or military plan at the time of the interview. A participant is also defined as uninsured if he or she reported having only Indian Health Service coverage, or only a private plan that paid for one type of service such as family planning, accidents, or dental care. For more information regarding health insurance questions please refer to Section VII (page 35) of the 2014 National Health Interview Survey (NHIS) Survey Description</p> <p>% with adequate health insurance in the reporting year</p> <p>Numerator: Program participants who reported having adequate insurance coverage during the reporting period.</p> <p>Denominator: Program participants during the reporting period.</p>

¹ Consistent with Healthy Start Benchmark 1: The percent of Healthy Start women and child participants with health insurance.

LC 1 PERFORMANCE MEASURE	The percent of programs promoting and/ or facilitating adequate health insurance coverage.
Goal: Adequate Health Insurance Coverage	
Level: Grantee	
Domain: Life Course/ Cross Cutting	
BENCHMARK DATA SOURCES	Related to HP2030 AHS-01: Increase the proportion of people with health insurance (Baseline: 89.0% of persons under 65 years had medical insurance in 2018; Target: 92.1%)
GRANTEE DATA SOURCES	Grantee data systems
SIGNIFICANCE	Inadequately insured children are more likely to have delayed or forgone care, lack a medical home, be less likely to receive needed referrals and care coordination, and receive family-centered care. ² Approximately 27% of American children were not adequately insured in 2018-2019. ³

LC 2 PERFORMANCE MEASURE	The percent of programs promoting and/ or facilitating tobacco and eCigarette cessation.
Goal: Tobacco and eCigarette Use Level: Grantee Domain: Life Course/ Cross Cutting	
GOAL	To ensure supportive programming promoting and/ or facilitating tobacco and eCigarette cessation.
MEASURE	The percent of MCHB funded projects promoting and/ or facilitating tobacco and eCigarette cessation, and through what processes.
DEFINITION	<p>Tier 1: Are you addressing tobacco and eCigarette cessation in your program?</p> <ul style="list-style-type: none"><input type="checkbox"/> Yes<input type="checkbox"/> No <p>Tier 2: Through what activities are you promoting and/ or facilitating tobacco and eCigarette cessation?</p> <ul style="list-style-type: none"><input type="checkbox"/> Technical Assistance<input type="checkbox"/> Training<input type="checkbox"/> Product Development<input type="checkbox"/> Research/ Peer-reviewed publications<input type="checkbox"/> Outreach/ Information Dissemination/ Education<input type="checkbox"/> Tracking/ Surveillance<input type="checkbox"/> Screening/ Assessment<input type="checkbox"/> Referral/ care coordination<input type="checkbox"/> Direct Service<input type="checkbox"/> Quality improvement initiatives <p>Tier 3: How many are reached through those activities? <i>See data LC 2 Data Collection Form.</i></p> <p>Tier 4: What are the related outcomes in the reporting year?</p> <p>% of prenatal program participants who abstain from smoking</p> <p>Numerator: Number of prenatal program participants who do not smoke cigarettes as of their last contact in the reporting year.</p> <p>Denominator: Number of prenatal program participants during the reporting year.</p> <p>% of prenatal program participants that abstain from smoking cigarettes in their third trimester.</p> <p>Numerator: Number of prenatal program participants who abstained from using any tobacco products during the last 3 months (third trimester) of pregnancy.</p> <p>Denominator: Total number of prenatal program participants who were enrolled at least 90 days before delivery.</p> <p>Smoking includes all tobacco products and e-cigarettes.</p>
BENCHMARK DATA SOURCES	Related to HP2030 MICH-10: Increase abstinence from cigarette smoking among pregnant women. (Baseline: 93.5% in 2018, Target: 95.7%). Related to HP2030 TU-15: Increase smoking cessation success during pregnancy among females. (Baseline: 20.2% in 2018, Target 24.4%)

LC 2 PERFORMANCE MEASURE

The percent of programs promoting and/ or facilitating tobacco and eCigarette cessation.

Goal: Tobacco and eCigarette Use

Level: Grantee

Domain: Life Course/ Cross Cutting

GRANTEE DATA SOURCES

Grantee data systems

SIGNIFICANCE

Women who smoke during pregnancy are more likely to experience a fetal death or deliver a low birth weight baby. Adverse effects of parental smoking on children have been a clinical and public health concern for decades.¹ Children have an increased frequency of ear infections; acute respiratory illnesses and related hospital admissions during infancy; severe asthma and asthma-related problems; lower respiratory tract infections; and SIDS.

LC 3 PERFORMANCE MEASURE	The percent of programs promoting and/ or facilitating oral health.
Goal: Oral Health Level: Grantee Domain: Life Course/ Cross Cutting	
GOAL	To ensure supportive programming for oral health.
MEASURE	The percent of MCHB funded projects promoting and/ or facilitating oral health, and through what activities.
DEFINITION	<p>Tier 1: Are you promoting and/ or facilitating oral health in your program?</p> <ul style="list-style-type: none"><input type="checkbox"/> Yes<input type="checkbox"/> No <p>Tier 2: Through what activities are you promoting and/ or facilitating oral health?</p> <ul style="list-style-type: none"><input type="checkbox"/> Technical Assistance<input type="checkbox"/> Training<input type="checkbox"/> Product Development<input type="checkbox"/> Research/ Peer-reviewed publications<input type="checkbox"/> Outreach/ Information Dissemination/ Education<input type="checkbox"/> Tracking/ Surveillance<input type="checkbox"/> Screening/ Assessment<input type="checkbox"/> Referral<input type="checkbox"/> Direct Service<input type="checkbox"/> Quality improvement initiatives <p>Tier 3: How many from each population are reached through each of the activities? <i>See data LC 3 Data Collection Form.</i></p> <p>Tier 4: What are the related outcomes in the reporting year?</p> <p>% of program participants receiving an oral health risk assessment</p> <p>Numerator: Number of program participants who received an oral health risk assessment in the reporting year.</p> <p>Denominator: All program participants.</p> <p>% of women in program population who had a dental visit during pregnancy</p> <p>Numerator: Program participants who were pregnant during the reporting year who had a dental visit.</p> <p>Denominator: Program participants who were pregnant during the reporting year.</p> <p>% of those aged 1 through 17 who had preventative oral health visit during the last year</p> <p>Numerator: Infants and children involved with the program who received a preventative oral health visit in the reporting year.</p> <p>Denominator: Infants and children involved with the program during the reporting year.</p>
BENCHMARK DATA SOURCES	Related to HP2030 OH-8: Increase the proportion of children, adolescents, and adults who use the oral health care system (Baseline: 43.3% in 2016; Target: 45.0%). Related to HP2030 OH-9: Increase the proportion of low income youth who have a preventive dental visit (Baseline: 78.8% of children aged 1

LC 3 PERFORMANCE MEASURE	The percent of programs promoting and/ or facilitating oral health.
Goal: Oral Health	
Level: Grantee	
Domain: Life Course/ Cross Cutting	

through 17 years who reside in households with income less than 200 percent of the federal poverty level received a preventive dental service in 2016-17; Target: 82.7%).

GRANTEE DATA SOURCES

Title V National Performance Measure #13

SIGNIFICANCE

Oral health is a vital component of overall health and oral health care remains the greatest unmet health need for children. Insufficient access to oral health care and effective preventive services affects children’s health, education, and ability to prosper. To prevent tooth decay and oral infection, the American Academy of Pediatric Dentistry (AAPD) recommends preventive dental care for all children after the eruption of the first tooth or by 12 months of age, usually at intervals of every 6 months.¹ Preventive dental care in pregnancy is also recommended by the American College of Obstetricians and Gynecologists (ACOG) to improve lifelong oral hygiene habits and dietary behavior for women and their families.²
