</tr>
</thead>
<tbody>
<tr>
<td>MEASURE</td>
<td>The percent of MCHB funded projects promoting and/or facilitating adequate health insurance coverage.</td>
</tr>
</tbody>
</table>
| DEFINITION | **Tier 1:** Are you promoting and/or facilitating adequate health insurance coverage in your program?  
☐ Yes  
☐ No  

**Tier 2:** Through what activities are you promoting and/or facilitating adequate health insurance coverage?  
☐ Technical Assistance  
☐ Training  
☐ Product Development  
☐ Research/ Peer-reviewed publications  
☐ Outreach/ Information Dissemination/ Education  
☐ Tracking/ Surveillance  
☐ Screening/ Assessment  
☐ Referral to insurance enrollment  
☐ Quality improvement initiatives  

**Tier 3:** How many are reached through those activities?  
*See data LC 1 Data Collection Form.*  

**Tier 4:** What are the related outcomes?  
% with health insurance\(^1\)  

**Numerator:** Number of program participants with health insurance as of the last assessment during the reporting period.  

**Denominator:** Number of program participants during the reporting period.  

Participants are identified as not insured if they report not having any of the following: private health insurance, Medicare, Medicaid, Children's Health Insurance Program (CHIP), State-sponsored or other government-sponsored health plan, or military plan at the time of the interview. A participant is also defined as uninsured if he or she reported having only Indian Health Service coverage, or only a private plan that paid for one type of service such as family planning, accidents, or dental care. For more information regarding health insurance questions please refer to Section VII (page 35) of the *2014 National Health Interview Survey (NHIS) Survey Description.*  

% with adequate health insurance in the reporting year  

**Numerator:** Program participants who reported having adequate insurance coverage during the reporting period.  

**Denominator:** Program participants during the reporting period.

---

\(^1\) Consistent with Healthy Start Benchmark 1: The percent of Healthy Start women and child participants with health insurance.
**LC 1 PERFORMANCE MEASURE**

**Goal:** Adequate Health Insurance Coverage  
**Level:** Grantee  
**Domain:** Life Course/ Cross Cutting  

The percent of programs promoting and/or facilitating adequate health insurance coverage.

**BENCHMARK DATA SOURCES**

Related to HP2030 AHS-01: Increase the proportion of people with health insurance (Baseline: 89.0% of persons under 65 years had medical insurance in 2018; Target: 92.1%)

**GRANTEE DATA SOURCES**

Grantee data systems

**SIGNIFICANCE**

Inadequately insured children are more likely to have delayed or forgone care, lack a medical home, be less likely to receive needed referrals and care coordination, and receive family-centered care.\(^2\) Approximately 27% of American children were not adequately insured in 2018-2019.\(^3\)

**LC 2 PERFORMANCE MEASURE**

**Goal:** Tobacco and eCigarette Use  
**Level:** Grantee  
**Domain:** Life Course/ Cross Cutting

The percent of programs promoting and/or facilitating tobacco and eCigarette cessation.

---

**GOAL**  
To ensure supportive programming promoting and/or facilitating tobacco and eCigarette cessation.

---

**MEASURE**  
The percent of MCHB funded projects promoting and/or facilitating tobacco and eCigarette cessation, and through what processes.

---

**DEFINITION**  
**Tier 1:** Are you addressing tobacco and eCigarette cessation in your program?  
- Yes  
- No  

**Tier 2:** Through what activities are you promoting and/or facilitating tobacco and eCigarette cessation?  
- Technical Assistance  
- Training  
- Product Development  
- Research/ Peer-reviewed publications  
- Outreach/ Information Dissemination/ Education  
- Tracking/ Surveillance  
- Screening/ Assessment  
- Referral/ care coordination  
- Direct Service  
- Quality improvement initiatives  

**Tier 3:** How many are reached through those activities?  
*See data LC 2 Data Collection Form.*

**Tier 4:** What are the related outcomes in the reporting year?  
- % of prenatal program participants who abstain from smoking  

**Numerator:** Number of prenatal program participants who do not smoke cigarettes as of their last contact in the reporting year.  
**Denominator:** Number of prenatal program participants during the reporting year.

- % of prenatal program participants that abstain from smoking cigarettes in their third trimester.  

**Numerator:** Number of prenatal program participants who abstained from using any tobacco products during the last 3 months (third trimester) of pregnancy.  
**Denominator:** Total number of prenatal program participants who were enrolled at least 90 days before delivery.

Smoking includes all tobacco products and e-cigarettes.

---

**BENCHMARK DATA SOURCES**  
Related to HP2030 MICH-10: Increase abstinence from cigarette smoking among pregnant women. (Baseline: 93.5% in 2018, Target: 95.7%). Related to HP2030 TU-15: Increase smoking cessation success during pregnancy among females. (Baseline: 20.2% in 2018, Target 24.4%)

LC 3 PERFORMANCE MEASURE

Goal: Oral Health
Level: Grantee
Domain: Life Course/ Cross Cutting

The percent of programs promoting and/or facilitating oral health.

GOAL
To ensure supportive programming for oral health.

MEASURE
The percent of MCHB funded projects promoting and/or facilitating oral health, and through what activities.

DEFINITION
Tier 1: Are you promoting and/or facilitating oral health in your program?

- Yes
- No

Tier 2: Through what activities are you promoting and/or facilitating oral health?

- Technical Assistance
- Training
- Product Development
- Research/Peer-reviewed publications
- Outreach/Information Dissemination/Education
- Tracking/Surveillance
- Screening/Assessment
- Referral
- Direct Service
- Quality improvement initiatives

Tier 3: How many from each population are reached through each of the activities?

See data LC 3 Data Collection Form.

Tier 4: What are the related outcomes in the reporting year?

% of program participants receiving an oral health risk assessment

- **Numerator:** Number of program participants who received an oral health risk assessment in the reporting year.
- **Denominator:** All program participants.

% of women in program population who had a dental visit during pregnancy

- **Numerator:** Program participants who were pregnant during the reporting year who had a dental visit.
- **Denominator:** Program participants who were pregnant during the reporting year.

% of those aged 1 through 17 who had preventative oral health visit during the last year

- **Numerator:** Infants and children involved with the program who received a preventative oral health visit in the reporting year.
- **Denominator:** Infants and children involved with the program during the reporting year.

BENCHMARK DATA SOURCES
Related to HP2030 OH-8: Increase the proportion of children, adolescents, and adults who use the oral health care system (Baseline: 43.3% in 2016; Target: 45.0%).
Related to HP2030 OH-9: Increase the proportion of low income youth who have a preventive dental visit (Baseline: 78.8% of children aged 1...
LC 3 PERFORMANCE MEASURE

Goal: Oral Health  
Level: Grantee  
Domain: Life Course/ Cross Cutting

The percent of programs promoting and/or facilitating oral health.

through 17 years who reside in households with income less than 200 percent of the federal poverty level received a preventive dental service in 2016-17; Target: 82.7%).

GRANTEE DATA SOURCES

Title V National Performance Measure #13

SIGNIFICANCE

Oral health is a vital component of overall health and oral health care remains the greatest unmet health need for children. Insufficient access to oral health care and effective preventive services affects children’s health, education, and ability to prosper. To prevent tooth decay and oral infection, the American Academy of Pediatric Dentistry (AAPD) recommends preventive dental care for all children after the eruption of the first tooth or by 12 months of age, usually at intervals of every 6 months.  

Preventive dental care in pregnancy is also recommended by the American College of Obstetricians and Gynecologists (ACOG) to improve lifelong oral hygiene habits and dietary behavior for women and their families.  

Data Collection Form for #LC 3

Please use the form below to identify what services you provide to each population. For those that you provide the service to, please provide the number reached by the services provided (i.e. number of children receiving referrals), for those that you do not, please leave blank.
