** The term "underserved" refers to "Medically Underserved Areas and Medically Underserved Populations with shortages of primary medical care, dental or mental health providers. Populations may be defined by geographic (a county or service area) or demographic (low income, Medicaid-eligible populations, cultural and/or linguistic access barriers to primary medical care services) factors. The term "vulnerable groups," refers to social groups with increased relative risk (i.e. exposure to risk factors) or susceptibility to health-related problems. This vulnerability is evidenced in higher comparative mortality rates, lower life expectancy, reduced access to care, and diminished quality of life.

Vulnerable Groups refers to social groups with increased relative risk (i.e. exposure to risk factors) or susceptibility to health-related problems. This vulnerability is evidenced in higher comparative mortality rates, lower life expectancy, reduced access to care, and diminished quality of life. (i.e., Immigrant Populations Tribal Populations, Migrant Populations, Uninsured Populations, Individuals Who Have Experienced Family Violence, Homeless, Foster Care, HIV/AIDS, etc.) Source: Center for Vulnerable Populations Research. Confidentiality Statement

Thank you for agreeing to provide information that will enable your training program to track your training experience and follow up with you after the completion of your training. Your input is critical to our own improvement efforts and our compliance with Federal reporting requirements. Please know that your participation in providing information is entirely voluntary. The information you provide will only be used for monitoring and improvement of the training program. Please also be assured that we take the confidentiality of your personal information very seriously. We very much appreciate your time and assistance in helping to document outcomes of the Training Program. We look forward to learning about your academic and professional development.

Medium Term Trainees

MCH PIPELINE PROGRAM GRADUATE FOLLOW-UP QUESTIONS - NEW SURVEY

Please answer all of the following questions as thoroughly as possible. When you have filled out the entire survey,

return it	to your Pipeline Program Director.
What y	ear did you graduate from the MCH Pipeline Program?
1.	Are you currently enrolled or have you completed a graduate school program that is preparing you to work with the MCH population?
	□ Yes □ No
NOTE:	Graduate programs preparing graduate students to work in the MCH population include:
nursing	te (e.g., Pediatric, Ob/Gyn, Primary Care), public health, MCH nutrition, public health social work, MCH, pediatric dentistry, psychology, health education, health administration, pediatric occupational/physical, speech language pathology.
2.	Have you worked with Maternal and Child Health (MCH) populations since graduating from the MCH Pipeline Training Program? (i.e., women, infants and children, adolescents, young adults, and their families, including fathers, and children and youth with special health care needs)?
	□ Yes □ No
3.	Have you worked with populations considered to be underserved or vulnerable ³ since graduating from the MCH Pipeline Training program? (e.g., Immigrant Populations Tribal Populations, Migrant Populations, Uninsured Populations, Individuals Who Have Experienced Family Violence, Homeless, Foster Care, HIV/AIDS, health disparities, etc.)
	□ Yes □ No

Vulnerable Groups refers to social groups with increased relative risk (i.e. exposure to risk factors) or susceptibility to health-related problems. This vulnerability is evidenced in higher comparative mortality rates, lower life expectancy, reduced access to care, and diminished quality of life. (i.e., Immigrant Populations Tribal Populations, Migrant Populations, Uninsured Populations, Individuals Who Have Experienced Family Violence, Homeless, Foster Care, HIV/AIDS, etc.) Source: Center for Vulnerable Populations Research. UCLA. http://www.nursing.ucla.edu/orgs/cvpr/who-are-vulnerable.html

³ The term "underserved" refers to "Medically Underserved Areas and Medically Underserved Populations with shortages of primary medical care, dental or mental health providers. Populations may be defined by geographic (a county or service area) or demographic (low income, Medicaid-eligible populations, cultural and/or linguistic access barriers to primary medical care services) factors. The term "vulnerable groups," refers to social groups with increased relative risk (i.e., exposure to risk factors) or susceptibility to health-related problems. This vulnerability is evidenced in higher comparative mortality rates, lower life expectancy, reduced access to care, and diminished quality of life.
