

Delaware MIECHV Program FY 2022

HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [Delaware Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes¹.

1,354

Households

669

Home Visits

7,125

Delaware Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In Delaware:

- **73.3%** of households were at or below 100% of the Federal Poverty Guidelines
- **3.6%** of households included a pregnant enrollee under age 21

Delaware Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2020, the Delaware MIECHV program successfully met the requirements for demonstration of improvement by improving in 5 of the 6 MIECHV [benchmark areas](#).

FY 2022 Performance Highlights Include:

- **Intimate Partner Violence (IPV) Screening:** 95.1% of caregivers enrolled in home visiting were screened for IPV within 6 months of enrollment. IPV is associated with adverse physical and mental health outcomes. Children exposed to IPV are at a higher risk of abuse and neglect and may be more likely to experience certain health and behavioral problems, such as elevated blood pressure, sleep issues, anxiety, and depression.
- **Early Language and Literacy Activities:** 85.9% of children enrolled in home visiting had a family member who read, told stories, and/or sang with them on a daily basis. Children who are spoken to frequently by their caregivers have larger vocabularies and literacy skills, which are linked to later academic, social, and cognitive functioning.

Evidence-Based Home Visiting Models in Delaware

[Nurse-Family Partnership \(NFP\)](#)

[Parents as Teachers \(PAT\)](#)

[Healthy Families America \(HFA\)](#)

¹ HRSA awarded ARP ([American Rescue Plan Act](#)) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

Delaware MIECHV Performance Measurement Data Compared to MIECHV Averages²

Benchmark Area 1 – Maternal and Newborn Health Outcomes

Benchmark Area 2 – Child Injuries, Abuse, Neglect, and Maltreatment and Emergency Department Visits

Benchmark Area 3 – School Readiness and Achievement

Benchmark Area 4 – Crime or Domestic Violence

Benchmark Area 5 – Family Economic Self-Sufficiency

Benchmark Area 6 – Coordination and Referrals for Other Community Resources and Supports

■ Delaware MIECHV (FY 2022) ■ Delaware MIECHV Rolling Average (FY 2019- FY 2021)
■ MIECHV National Average (FY 2022) ■ MIECHV National Rolling Average (FY 2019- FY 2021)

² Comparison to a three-year average minimizes the effects of outliers or potential data reporting issues specific to one year.
 * Direction for improvement in performance is downwards. **Child Injury reported as a rate
