

Florida MIECHV Program FY 2022

HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [Florida Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes¹.

Florida MIECHV Program At-a-Glance

Rural counties by Funding Source:

■ MIECHV: Baker, Bradford, Columbia, DeSoto, Hamilton, Hardee, Jackson, Okeechobee, Putnam

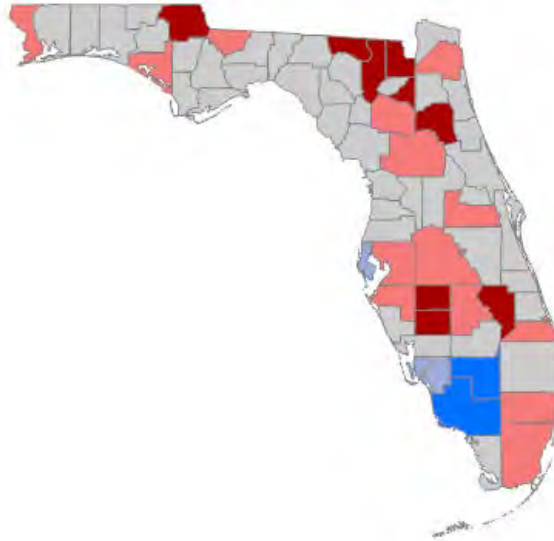

■ ARP¹: Collier, Hendry

Non-rural counties by Funding Source:

Source:

■ MIECHV: Alachua, Bay, Broward, Duval, Escambia, Gadsden, Highlands, Hillsborough, Manatee, Marion, Martin, Miami-Dade, Orange, Polk,

■ ARP: Pinellas, Lee

Participants

4,865

Households

2,576

Home Visits

33,554

Florida Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In Florida:

- **61.1%** of households were at or below 100% of the Federal Poverty Guidelines
- **9.2%** of households included a pregnant enrollee under age 21

Florida Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2020, the Florida MIECHV program successfully met the requirements for demonstration of improvement by improving in all 6 MIECHV [benchmark areas](#).

FY 2022 Performance Highlights Include:

- **Depression Screening:** 91.9% of caregivers enrolled in home visiting were screened for depression within 3 months of enrollment or within 3 months of delivery. Research shows that postpartum depression can be associated with a number of adverse outcomes for both the mother and infant, such as poor parent-child bonding, negative parenting approaches, and increased risk of developmental, health, and safety concerns for the child.
- **Partnerships:** Florida's MIECHV program created a partnership with Medicaid health plans to refer pregnant women to coordinated intake and referral and connect them to home visiting services.

Evidence-Based Home Visiting Models in Florida

[Nurse-Family Partnership \(NFP\)](#)

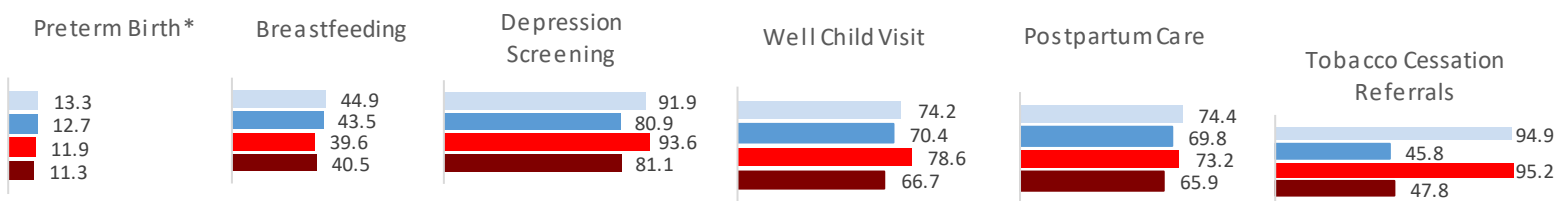

[Parents as Teachers \(PAT\)](#)

[Healthy Families America \(HFA\)](#)

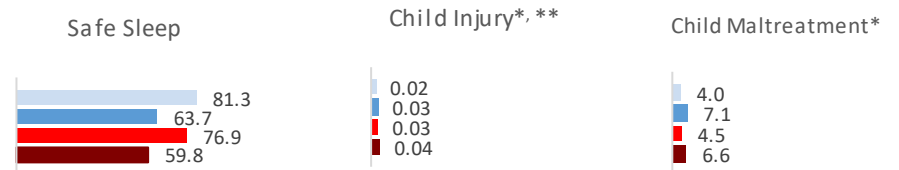

¹ HRSA awarded ARP ([American Rescue Plan Act](#)) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

Florida MIECHV Performance Measurement Data Compared to MIECHV Averages²

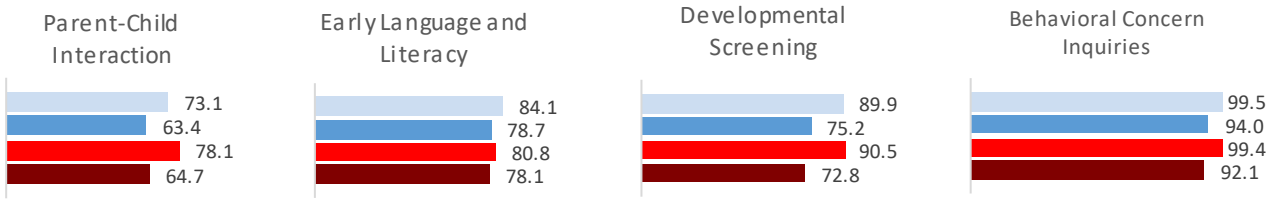

Benchmark Area 1 – Maternal and Newborn Health Outcomes

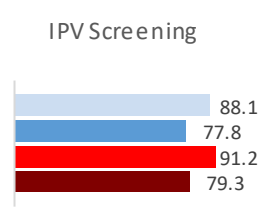

Benchmark Area 2 – Child Injuries, Abuse, Neglect, and Maltreatment and Emergency Department Visits

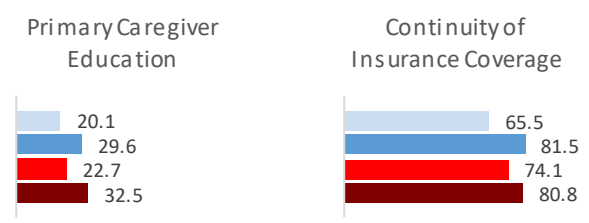

Benchmark Area 3 – School Readiness and Achievement

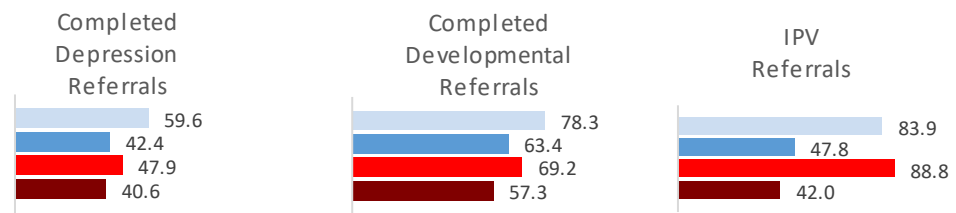

Benchmark Area 4 – Crime or Domestic Violence

Benchmark Area 5 – Family Economic Self-Sufficiency

Benchmark Area 6 – Coordination and Referrals for Other Community Resources and Supports

■ Florida MIECHV (FY 2022) ■ Florida MIECHV Rolling Average (FY 2019- FY 2021)
■ MIECHV National Average (FY 2022) ■ MIECHV National Rolling Average (FY 2019- FY 2021)

² Comparison to a three-year average minimizes the effects of outliers or potential data reporting issues specific to one year.
 * Direction for improvement in performance is downwards. **Child Injury reported as a rate
