

Minnesota MIECHV Program FY 2022

HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [Minnesota Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes¹.

Rural counties by Funding

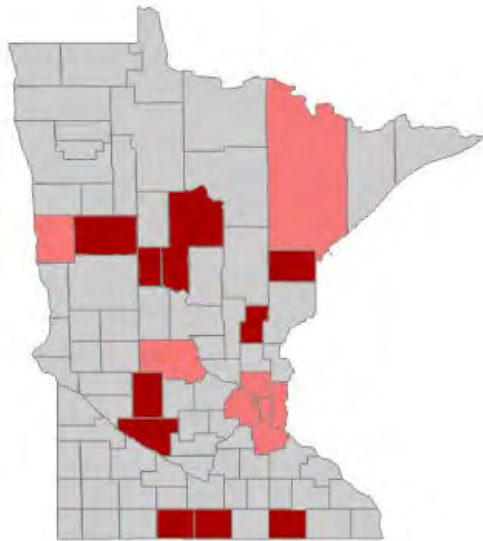

Source:

- MIECHV: Becker, Carlton, Cass, Faribault, Kanabec, Kandiyohi, Martin, Mower, Renville, Wadena

Non-rural counties by Funding

Source:

- MIECHV: Anoka, Clay, Dakota, Hennepin, Ramsey, St. Louis, Stearns, Washington

Participants

3,138

Households

1,716

Home Visits

13,758

Minnesota Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In Minnesota:

- **66.7%** of households were at or below 100% of the Federal Poverty Guidelines
- **9.9%** of households included a pregnant enrollee under age 21

Minnesota Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2020, the Minnesota MIECHV program successfully met the requirements for demonstration of improvement by improving in 4 of the 6 MIECHV [benchmark areas](#).

FY 2022 Performance Highlights Include:

- **Early Language and Literacy Activities:** **94.9%** of children enrolled in home visiting had a family member who read, told stories, and/or sang with them on a daily basis. Children who are spoken to frequently by their caregivers have larger vocabularies and literacy skills, which are linked to later academic, social, and cognitive functioning.
- **Professional Development:** In May 2022, Minnesota Department of Health Family Home Visiting partnered with Health Promotion and Chronic Disease Division to offer a statewide substance use disorder training to explore models of treatment, strategies for prevention, and harm reduction for home visitors.

Evidence-Based Home Visiting Models in Minnesota

[Healthy Families America \(HFA\)](#)

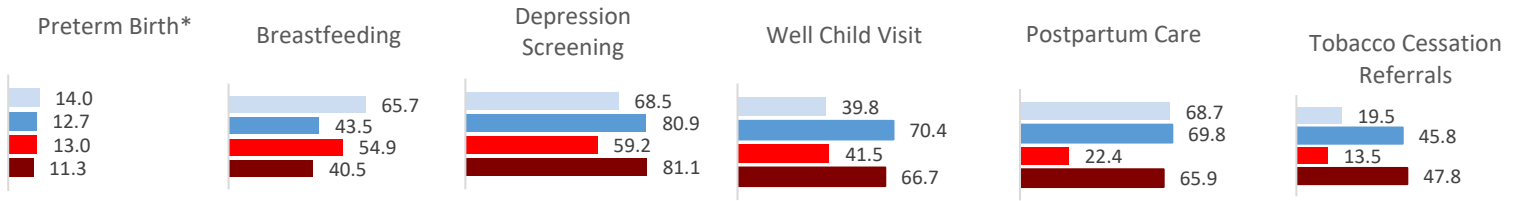

[Maternal Early Childhood Sustained Home-Visiting Program \(MECSH\)](#)

[Nurse-Family Partnership \(NFP\)](#)

¹ HRSA awarded ARP [American Rescue Plan Act](#) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

Minnesota MIECHV Performance Measurement Data Compared to MIECHV Averages²

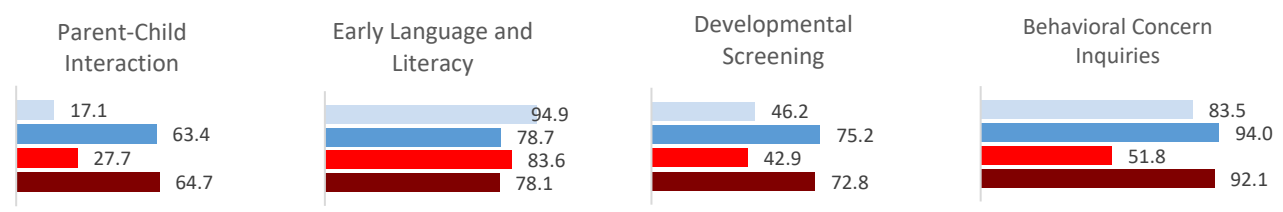

Benchmark Area 1 – Maternal and Newborn Health Outcomes

Benchmark Area 2 – Child Injuries, Abuse, Neglect, and Maltreatment and Emergency Department Visits

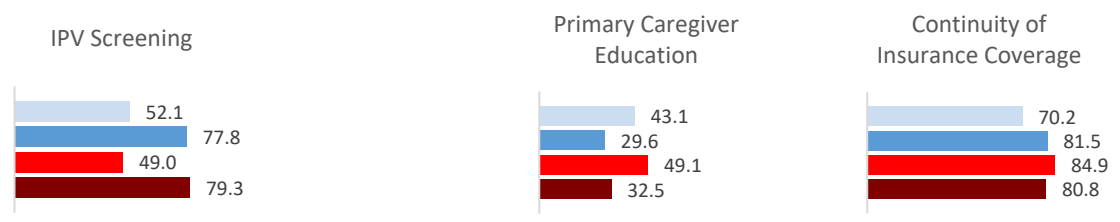

Benchmark Area 3 – School Readiness and Achievement

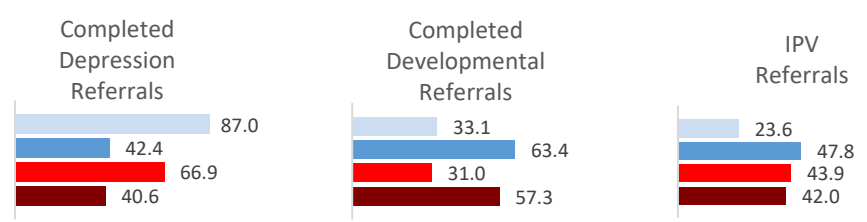

Benchmark Area 4 – Crime or Domestic Violence

Benchmark Area 5 – Family Economic Self-Sufficiency

Benchmark Area 6 – Coordination and Referrals for Other Community Resources and Supports

Minnesota MIECHV (FY 2022)
 MIECHV National Average (FY 2022)
 Minnesota MIECHV Rolling Average (FY 2019- FY 2021)
 MIECHV National Rolling Average (FY 2019- FY 2021)

² Comparison to a three-year average minimizes the effects of outliers or potential data reporting issues specific to one year.
 * Direction for improvement in performance is downwards. **Child Injury reported as a rate
