

New York MIECHV Program FY 2022

HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [New York Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes¹.

3,884

Home Visits

46,253

New York Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In New York:

- **69.9%** of households were at or below 100% of the Federal Poverty Guidelines
- **8.8%** of households included a pregnant enrollee under age 21

New York Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2020, the New York MIECHV program successfully met the requirements for demonstration of improvement by improving in all 6 MIECHV [benchmark areas](#).

Evidence-Based Home Visiting Models in New York

[Nurse-Family Partnership \(NFP\)](#)

[Healthy Families America \(HFA\)](#)

FY 2022 Performance Highlights Include:

- **Depression Screening:** 99.2% of caregivers enrolled in home visiting were screened for depression within 3 months of enrollment or within 3 months of delivery. Research shows that postpartum depression can be associated with a number of adverse outcomes for both the mother and infant, such as poor parent-child bonding, negative parenting approaches, and increased risk of developmental, health, and safety concerns for the child.
- **Community Partnerships:** NY MIECHV Fostered coordination and collaboration between home visiting and other health/social service programs, such as early intervention, kinship navigation, WIC, and domestic violence. This was accomplished via interagency workgroups at the state level and presentations for local agencies.

¹ HRSA awarded ARP ([American Rescue Plan Act](#)) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

New York MIECHV Performance Measurement Data Compared to MIECHV Averages²

Benchmark Area 1 – Maternal and Newborn Health Outcomes

Benchmark Area 2 – Child Injuries, Abuse, Neglect, and Maltreatment and Emergency Department Visits

Benchmark Area 3 – School Readiness and Achievement

Benchmark Area 4 – Crime or Domestic Violence

Benchmark Area 5 – Family Economic Self-Sufficiency

Benchmark Area 6 – Coordination and Referrals for Other Community Resources and Supports
