

HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [Oklahoma Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes¹.

Evidence-Based Home Visiting Models in Oklahoma: [Nurse-Family Partnership \(NFP\)](#), [Parents as Teachers \(PAT\)](#), [SafeCare Augmented](#)

Oklahoma MIECHV Program At-a-Glance

■ **Rural Counties²:**

None

■ **Non-Rural Counties²:**

Comanche, Oklahoma, Tulsa

Participants

1,849

Households

946

Home Visits

11,948

Oklahoma Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In Oklahoma:

- **92.4%** of households were at or below 200% of the Federal Poverty Guidelines and **59%** were at or below 100% of those guidelines.
- **5.2%** of households included a pregnant enrollee under age 21

Oklahoma Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2023, the Oklahoma MIECHV program successfully met the requirements for demonstration of improvement by improving in 5 of the 6 [benchmark areas](#).

FY 2023 Performance Highlights Include:

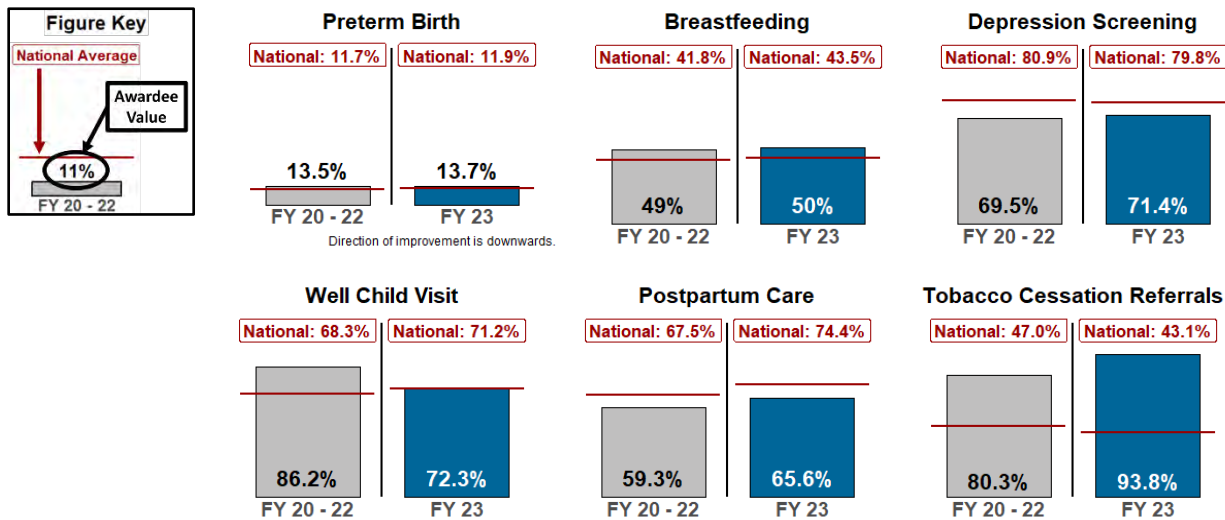

- **Developmental Screening:** 90.2% of children enrolled in home visiting had a timely screening for developmental delays. Early identification, referral to necessary supports and services, and follow-up has been shown to improve the developmental trajectories of children with developmental delays or disability.
- **Breastfeeding:** 50% of infants enrolled in home visiting aged 6-12 months (among mothers who enrolled in home visiting prenatally) were breastfed any amount at 6 months of age. Breast milk is the best source of nutrition for most infants and breastfeeding can help protect the infant and mother against certain illnesses and long-term diseases.

¹ HRSA awarded ARP ([American Rescue Plan Act](#)) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

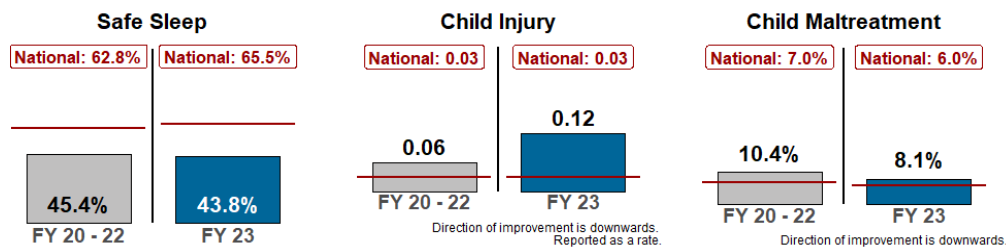

² These counties were served by MIECHV formula funds, ARP funds, or both.

Oklahoma MIECHV Performance Data Compared to National MIECHV Averages

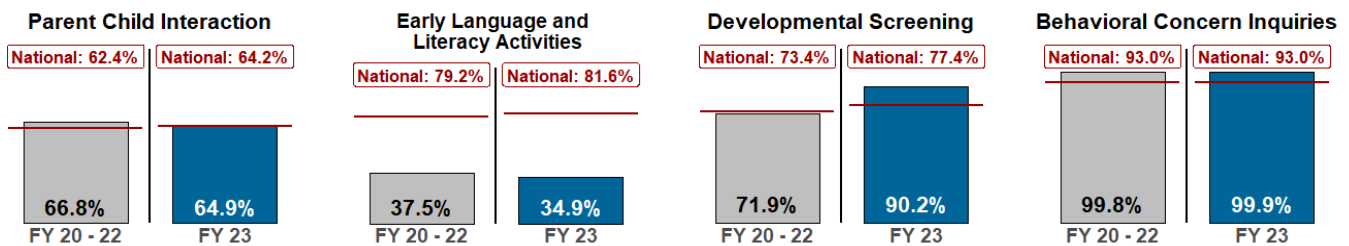

Benchmark Area 1: Maternal and Newborn Health Outcomes

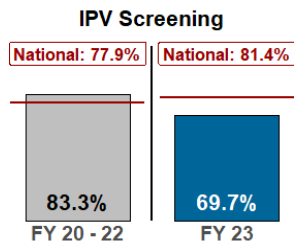

Benchmark Area 2: Child Injuries, Maltreatment, and Emergency Department Visits

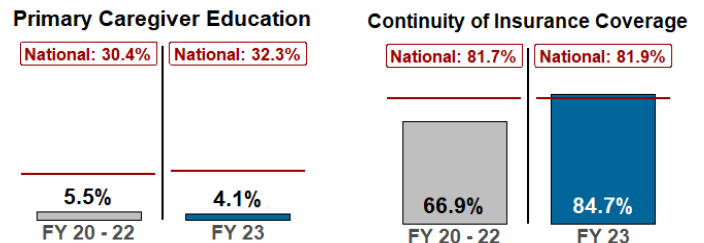

Benchmark Area 3: School Readiness and Achievement

Benchmark Area 4: Crime or Domestic Violence

Benchmark Area 5: Family Economic Self Sufficiency

Benchmark Area 6: Coordination and Referrals
