

HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [Pennsylvania Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes¹.

Evidence-Based Home Visiting Models in Pennsylvania: [Child FIRST](#), [Early Head Start—Home-Based Option](#), [Family Check-Up For Children](#), [Healthy Families America \(HFA\)](#), [Nurse-Family Partnership \(NFP\)](#), [Parents as Teachers \(PAT\)](#), [SafeCare Augmented](#)

Pennsylvania MIECHV Program At-a-Glance

■ Rural Counties²:

Cameron, Clarion, Clearfield, Jefferson, Juniata, Lawrence, McKean, Mifflin, Pike, Potter, Snyder, Union

■ Non-Rural Counties²:

Blair, Carbon, Columbia, Lackawanna, Mercer, Perry, Philadelphia

Participants

4,494

Households

2,094

Home Visits

19,915

Pennsylvania Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In Pennsylvania:

- **98.4%** of households were at or below 200% of the Federal Poverty Guidelines and **66.1%** were at or below 100% of those guidelines.
- **6.9%** of households included a pregnant enrollee under age 21

Pennsylvania Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2023, the Pennsylvania MIECHV program successfully met the requirements for demonstration of improvement by improving in all 6 [benchmark areas](#).

FY 2023 Performance Highlights Include:

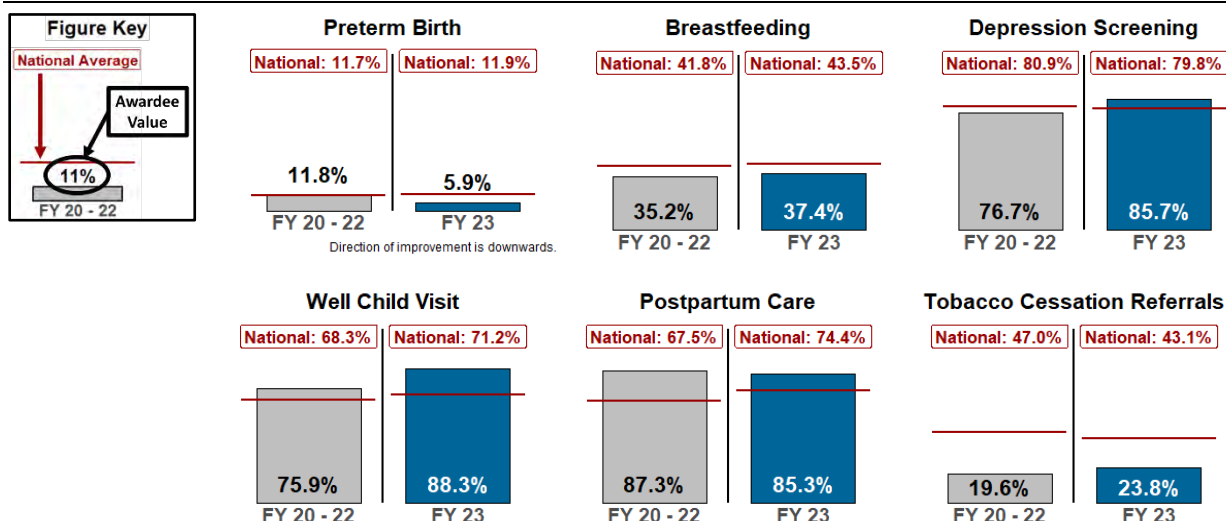

- **Domestic Violence Prevention:** The Pennsylvania MIECHV Program coordinated with the Pennsylvania Coalition Against Domestic Violence to hold regional roundtables with domestic violence support providers and local implementing agencies. The sessions served as an opportunity to build meaningful robust relationships to increase support and safety for survivors of domestic violence.
- **Postpartum Care:** 85.3% of mothers enrolled in home visiting received a postpartum visit with a healthcare provider within 8 weeks of delivery. Many maternal deaths occur in the postpartum period and are considered preventable with appropriate follow-up care – the CDC has found that 66 percent of postpartum deaths are preventable.

¹ HRSA awarded ARP ([American Rescue Plan Act](#)) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

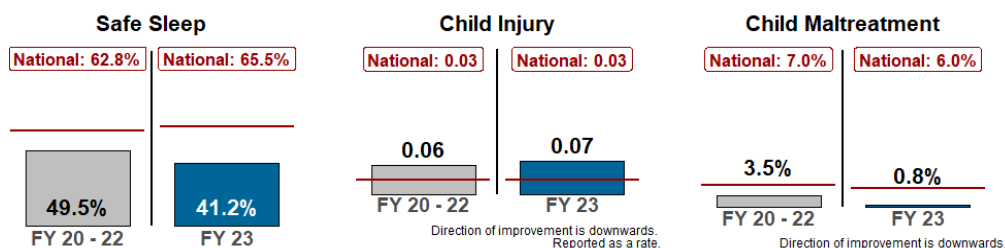

² These counties were served by MIECHV formula funds, ARP funds, or both.

Pennsylvania MIECHV Performance Data Compared to National MIECHV Averages

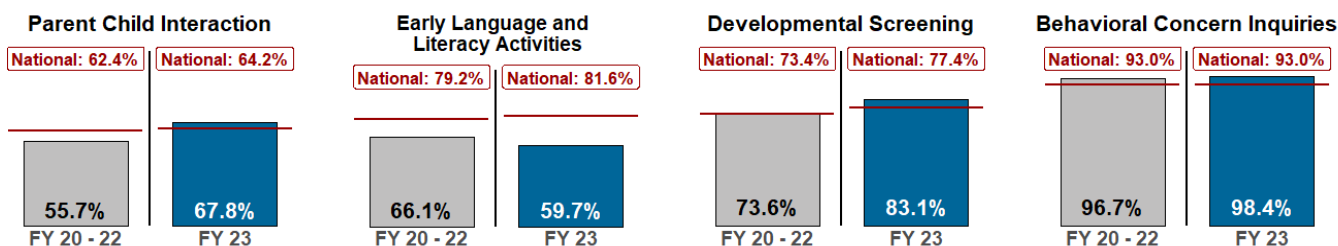

Benchmark Area 1: Maternal and Newborn Health Outcomes

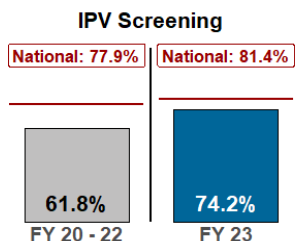

Benchmark Area 2: Child Injuries, Maltreatment, and Emergency Department Visits

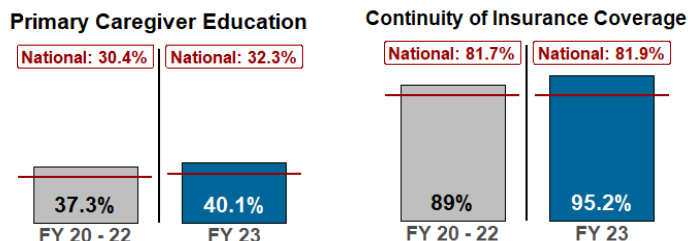

Benchmark Area 3: School Readiness and Achievement

Benchmark Area 4: Crime or Domestic Violence

Benchmark Area 5: Family Economic Self Sufficiency

Benchmark Area 6: Coordination and Referrals
