

# South Carolina MIECHV Program FY 2022

## HRSA's Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program

supports the [South Carolina Home Visiting Program](#) and provides voluntary, evidence-based home visiting programs for expectant and new parents with children through kindergarten entry age living in communities that are at-risk for poor maternal and child health outcomes<sup>1</sup>.

### South Carolina MIECHV Program At-a-Glance

#### Rural counties by Funding Source:

**■ MIECHV:** Abbeville, Allendale, Barnwell, Cherokee, Chester, Clarendon, Georgetown, Greenwood, Jasper, Marion, McCormick, Newberry, Oconee, Orangeburg, Saluda, Union, Williamsburg

**■ Both ARP<sup>1</sup> & MIECHV:** Colleton

#### Non-rural counties by Funding Source:

**■ MIECHV:** Anderson, Beaufort, Darlington, Edgefield, Fairfield, Florence, Greenville, Horry, Kershaw, Lancaster, Laurens, Lexington, Pickens, Richland, Spartanburg, Sumter, York

**■ Both ARP & MIECHV:** Berkeley, Charleston, Dorchester

**Participants**

**2,614**

**Households**

**1,420**

**Home Visits**

**17,456**

## South Carolina Prioritizes Community Needs

MIECHV Program awardees tailor their programs to serve populations of need within their state. In South Carolina:

- **96.1%** of households were at or below 100% of the Federal Poverty Guidelines
- **14.9%** of households included a pregnant enrollee under age 21

## South Carolina Performance Highlights

MIECHV Program awardees track and report improvements in MIECHV benchmark areas every year. Awardees are required by authorizing statute to demonstrate improvement in benchmark areas every three years. In the most recent assessment following FY 2020, the South Carolina MIECHV program successfully met the requirements for demonstration of improvement by improving in all 6 MIECHV [benchmark areas](#).

#### FY 2022 Performance Highlights Include:

- **Early Language and Literacy Activities:** 96.9% of children enrolled in home visiting had a family member who read, told stories, and/or sang with them on a daily basis. Children who are spoken to frequently by their caregivers have larger vocabularies and literacy skills, which are linked to later academic, social, and cognitive functioning.
- **Safe Sleep:** 95.3% of infants enrolled in home visiting were always placed to sleep on their backs, without bed-sharing or soft bedding. Following recommended infant safe sleep practices can reduce the risk of sudden infant death syndrome (SIDS) and other sleep-related infant deaths.

Evidence-Based Home Visiting Models in South Carolina

[Healthy Families America \(HFA\)](#)

[Nurse-Family Partnership \(NFP\)](#)

[Parents as Teachers \(PAT\)](#)

<sup>1</sup> HRSA awarded ARP ([American Rescue Plan Act](#)) funds to current MIECHV awardees to address the needs of families in response to the COVID-19 pandemic.

# South Carolina MIECHV Performance Measurement Data Compared to MIECHV Averages<sup>2</sup>

## Benchmark Area 1 – Maternal and Newborn Health Outcomes

## Benchmark Area 2 – Child Injuries, Abuse, Neglect, and Maltreatment and Emergency Department Visits

## Benchmark Area 3 – School Readiness and Achievement

## Benchmark Area 4 – Crime or Domestic Violence

## Benchmark Area 5 – Family Economic Self-Sufficiency

## Benchmark Area 6 – Coordination and Referrals for Other Community Resources and Supports

South Carolina MIECHV (FY 2022)
  MIECHV National Average (FY 2022)
  South Carolina MIECHV Rolling Average (FY 2019- FY 2021)
  MIECHV National Rolling Average (FY 2019- FY 2021)

<sup>2</sup> Comparison to a three-year average minimizes the effects of outliers or potential data reporting issues specific to one year.  
 \* Direction for improvement in performance is downwards. \*\*Child Injury reported as a rate
