Expiration Date: 09/30/2029

Transforming Pediatrics for Early Childhood Program Performance Measures

Public Burden Statement: The purpose of this information collection is to obtain performance data for Transforming Pediatrics for Early Childhood (TPEC) Program funding recipients. In addition, HRSA will use the information to monitor and provide oversight to TPEC funding recipients so the recipients can successfully access, analyze, and use pediatric practice-level and state-level data to meet program goals. HRSA will also use the performance information to demonstrate program accountability and impact to young children and their families served by the TPEC-funded pediatric practices. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0906-0118 and it is valid until 09/30/2029. Public reporting burden for this collection of information is estimated 120 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

Measure	Numerator	Denominator	Data Source	Type of Measure
Pediatric primary care staff trained	Number of unique pediatric primary care staff that received at least one training in the reporting period.	N/A	Training logs	Count
Partner pediatric practices	Number of pediatric practices (both new and existing) that were engaged as partners in the reporting period.	N/A	Subrecipient logs	Count
Early Childhood Development (ECD) experts	Number of ECD experts (both new and existing) in partner pediatric practices in the reporting period.	N/A	Hiring logs	Count
Timely well-child visits	Number of children, aged 5 years and under, served in partner pediatric practices in the reporting period who received the last recommended well-child visit based on the Bright Futures periodicity schedule.	Total number of children, aged 5 years and under, served in partner pediatric practices in the reporting period.	Aggregate of children's electronic health records	Percentage
Timely developmental screening	Number of children, aged 3 years and under, served in partner pediatric practices in the reporting period who received the appropriate developmental screening using a validated parent-completed tool based on the Bright Futures periodicity schedule.	Total number of children, aged 3 years and under, served in partner pediatric practices due for a screening in the reporting period.	Aggregate of children's electronic health records	Percentage

Comprehensive screening	Number of children, aged 5 years and under, served in partner pediatric practices in the reporting period with documented assessment of caregiver mental health, food security, housing stability, and transportation access for the child's family.	Total number of children, aged 5 years and under, served in partner pediatric practices in the reporting period.	Aggregate of children's electronic health records	Percentage
Care coordination & follow-up	Number of children, aged 5 years and under, served in partner pediatric practices in the reporting period with documentation of follow-up services received for all positive developmental screening and/or comprehensive assessment results.	Total number of children, aged 5 years and under, served in partner pediatric practices in the reporting period with documented positive developmental screening and/or comprehensive assessment results.	Aggregate of children's electronic health records	Percentage
Child flourishing (0-2 items)	Number of children, aged 6 months to 5 years, served in partner pediatric practices in the reporting period that meet 0-2 of the child flourishing criteria.	Total number of children, aged 6 months to 5 years, served in partner pediatric practices in the reporting period.	Aggregate of parent survey results	Percentage
Child flourishing (3 items)	Number of children, aged 6 months to 5 years, served in partner pediatric practices in the reporting period that meet 3 of the child flourishing criteria.	Total number of children, aged 6 months to 5 years, served in partner pediatric practices in the reporting period.	Aggregate of parent survey results	Percentage
Child flourishing (4 items)	Number of children, aged 6 months to 5 years, served in partner pediatric practices in the reporting period that meet all 4 of the child flourishing criteria.	Total number of children, aged 6 months to 5 years, served in partner pediatric practices in the reporting period.	Aggregate of parent survey results	Percentage

Parent Survey Questions for Child Flourishing: How often… *(Response options are Always, Usually, Sometimes, and Never)*

1) Is this child affectionate and tender with you?

2) Does this child bounce back quickly when things do not go their way?

3) Does this child show interest and curiosity in learning new things?

4) Does this child smile and laugh?
